HIMANSHU SINGH

Web Developer | WordPress & PHP

Dehradun, Uttarakhand | +91 9389718063 | himanshupharswan67@gmail.com | linkedin.com/in/himanshu-singh-web-developer

PROFESSIONAL SUMMARY

Web developer with about 3 years of experience building and maintaining WordPress, custom PHP, Elementor, Webflow and Node.js websites, including 50+ live sites. Also test sites across devices and browsers, report bugs to management and developers, and fix them. Experience with React, APIs, payment gateways, SEO, and automation (n8n, GoHighLevel). B.Tech in Computer Science and Engineering (2024).

EXPERIENCE

Abbot Technologies — Feb 2026 – Present

Sr. Designer and Developer (Full-time) — *Onsite*

- Led development of **2 live websites** in Elementor, tuning page speed and usability.
- Connected a React app to WordPress, set up a payment gateway and API integrations, and built login/logout.
- Worked in GoHighLevel: created templates, ran campaigns, and built workflows that are simple to follow and manage.
- Built an n8n automation that generates and schedules social media posts, cutting manual work.
- Tested the websites and the React app on multiple devices; reported bugs to management and developers and fixed them.

Xaca Technologies Pvt. Ltd. — Mar 2025 – Feb 2026

Web Developer (Full-time) — *Onsite*

- Built **45+ websites** from scratch in custom PHP, focusing on speed and functionality.
- Redesigned the company website in Elementor to improve engagement and visual design.
- Built **3 client websites** from scratch with Elementor, Webflow and Node.js; responsive and cross-browser compatible.
- Maintained **50+ live websites**: routine updates, custom PHP changes, and performance and security upkeep.
- Applied on-page and technical SEO (site structure, performance) to help search rankings.
- Checked sites across browsers and devices, passed bugs to management and developers, and fixed them.

Spiracle Themes — Jan 2024 – Jan 2025

Junior Web Developer (Full-time) — *Onsite*

- Built 2+ live projects with custom core-PHP WordPress themes from scratch, using Git/GitHub for version control.
- Designed 450+ visual assets in Canva, Microsoft Designer and Photoshop, increasing website engagement by **30%**.
- Built responsive, SEO-friendly pages that contributed to a **60%** increase in website traffic.
